

Re: Dominic Morgan
February 2021

To Whom It May Concern:

We have been working with Dominic for just over five years. In this time, we have assisted with the creation of two films, Faith and Room 16. We are also backing the coming feature film, "Morris Men" and have already entered into talks to back a further three projects.

Dominic is a rare breed of creative, totally self-driven and yet creatively inclusive. His way of working encourages others to flex their creative muscles in a controlled and learning environment. During the filming of the two projects, Dominic created and put to work, "The Under Dog Crew". This programme assists those with mental health challenges to work in a true creative environment whilst at the same time being guided and chaperoned through the work by long standing creative professionals. Dominic's drive to help others with their mental health challenges by giving structured and guided access to the creative process is second to none. He uses an innovative approach whereby candidates are given real tasks and positions of responsibility within the project, but are shadowed by professional creative enablers, who not only have many years of media / creative experience but also have an understanding of some of the challenges the "Under Dog Crew" face with their mental health.

Our investment in all six projects will total somewhere in the region of £120,000.00, we believe this is a sound investment and can see that for every pound we have invested Dominic has squeezed out two pounds of value. This inclusive way of film making has proved successful and we would advise any other investor or funder to get on board, not only to help this very talented British Filmmaker, but to help secure and develop the creative industries of Essex and South East England.

Your Faithfully,
